

This is how sustainable wire and Tube 2022 are:

Premiere of the ecoMetal Trails in Düsseldorf in June

To the tune of 1,900 exhibitors on 95,000 square metres of net exhibition space, many global firsts at the trade fair and 13 well-filled exhibition halls: wire and Tube 2022 will serve up five days packed with technology innovations from 20 to 24 June.

For the first time, on four out of five trade fair days there will be guided tours offered to visit exhibitors whose factory halls take sustainability into special consideration. They produce energy-efficiently, have set themselves high environmental standards and all share the same aim: reduce emissions in order to bring about a speedy energy transition.

21 to 24 June (Tuesday to Friday) will see various tours, the so-called ecoMetal Trails, departing from Nord entrance at 10.00 am and 2.00 pm.

The **wire Trails** guide participants to netzwerkDraht, Rosendahl Nextrom, swiss steel holding GmbH, Aurubis and ArcelorMittal and start on Tuesday and Thursday at 10.00 am and on Wednesday and Friday at 2.00 pm.

The **Tube Trails** organised on Wednesday and Friday at 10.00 am and on Thursdays at 2.00 pm take visitors to SMS, Ampco, Klöckner and also netzwerkDraht.

The trails are free for all interested visitors. Registrations can be submitted in the run-up to the trade fairs online at https://www.wire-tradefair.com/ecometals_visitor and at https://www.tube-tradefair.com/ecometals_visitors. Anyone opting
