**CabWire Industry Forum returns to Düsseldorf on 7 November 2017**

Cable and wire experts from the entire world are meeting for a major conference at Congress Center Ost (CCD.Ost) at the Düsseldorf Exhibition Centre on Tuesday, 7 November 2017.

The one-day conference will be accompanied by a foyer exhibition and will conclude with an evening reception. This top event is intended for key players in the wire industry and is being organised by two international associations: IWMA (the International Wire & Machinery Association) and IWCEA (the International Wire and Cable Exhibitors Association).

Experts from the exhibiting companies will be giving talks and providing information on current technologies and the latest trends. A list of exhibitors and details of the content and prices of the conference and the foyer exhibition can be found on the web, at www.cabwire.com.

The conference talks at CCD Ost will focus, for instance, on current developments in the European cable industry, future types of energy use, standards for cables, the impact of climate change on the orientations and properties of cables and of course the vast area of Industry 4.0.

In addition, on 8 November 2018, a guided tour of LEONI Kerpen GmbH will be offered, with interesting insights into the company's manufacturing operations. A nominal fee of EUR 40 will be charged. For further details and to book a place, please go to www.cabwire.com.
