

## CabWire World Conference 2015 in Düsseldorf on 3 November

International experts from the wire and cable industry are meeting in Düsseldorf for a top-level exchange on 3 November 2015.

As before, the seventh biennial cable and wire technical conference, CabWire World Conference 2015, will be held at the Congress Center Düsseldorf. Following the successful event in Milan in 2013, Düsseldorf will be “the place to be” again – for the second time – for all key players in the wire and cable industry. The one-day conference will be accompanied by a foyer exhibition and will conclude with an evening reception.

Organised by the sponsorship organisations of *wire Düsseldorf* (see below), experts from the exhibiting companies will be giving presentations on news and trends in iron and non-ferrous metals. They will include specialists from the following companies: Leoni AG, SAMP Spa (Italy), Maschinenfabrik Niehoff, SICME Italia Impianti, Sikora AG, De Montfort Leiceister University (UK), NV Bekaert SA (Belgium), FMS Force Measuring Systems AG (Switzerland), Ceeco Bartelli Products (Canada) and others – see [www.cabwire.com](http://www.cabwire.com).

The following day, on 4 November, a guided tour will be given at ArcelorMittal in Duisburg, against payment of a small cost contribution. The company has two plants in which it produces high-quality long products for the processing industry. Advance reservations are required.

Up-to-date information about the contents and prices of the conference, foyer exhibition and guided tour of the plant can be found on the internet, at [www.cabwire.com](http://www.cabwire.com).

(The CabWire World Conference 2015 is organised by the sponsorship organisations of *wire*: IWMA, ACIMAF, IWCEA and WAI as well as C.E.T.)
