

wire and Tube in summer 2022:

Düsseldorf's leading world trade fairs profit from declining pandemic situation

The new trade fair date from 20 to 24 June 2022 promises the greatest possible planning security for exhibitors and significantly better travel conditions for trade visitors from all over the world. After four years without their leading trade fairs, the professional world will finally meet again live and on site in Düsseldorf to exchange information about innovations from the wire, cable and tube industries.

There are a lot of innovations on the Düsseldorf Fairgrounds - from end products in fasteners and springs, an ecoMetals campaign with guided tours to exhibitors such as AMPCO METAL Deutschland GmbH, ARCELOR MITTAL COMMERCIAL SECTIONS S.A., Georgsmarienhütte GmbH, Klöckner & Co SE and SMS group GmbH, in whose production halls sustainability, energy efficiency and resource conservation have a strong emphasis, to expert meetings with keynote speeches by key players in the industries.

As the worldwide place-to-be for the wire, cable, tube and pipe industries, the exhibitors in June will present not only new machines and plants but also increasingly sustainable solutions for e-mobility, digitalisation and Industry 4.0. Start-ups with their ideas and cooperations in wire, cable, tube and pipe production complement the comprehensive range of products and services in the 13 exhibition halls.

The partial parallelism with METAV, leading international trade fair for metalworking technologies, results in additional synergy effects for visitors to wire and Tube.

Traditionally, wire and Tube are among the most international trade fairs in Messe Düsseldorf's portfolio. More than two thirds of the exhibitors come from abroad - exhibitors from 67 countries came to the 2018 pre-events. Trade visitors from over 130 countries meet at the Düsseldorf Fairgrounds at peak times.

The regulations in force in June 2022 concerning a safe hygiene and infection control concept for the Düsseldorf Fairgrounds can be accessed at any time at:
